12 September 2007

Dear Parent

One of our current Cub training activities is based around recycling. This lead to the Naturalist and Global Conservation badges for those Scouts who complete the tasks fully.

Hopefully in a couple of weeks, the Kirklees Recycling Education Officer will be coming to talk about recycling. In the meantime will you please help your son/daughter complete the attached sheet.

Would you please also reinforce the safety aspects of handling "rubbish".

I have asked for the charts to be returned by the end of the month.

Thank you for your help.

Yours faithfully

Dave
